

Distinctly Different!

PARK ROYAL VILLAGE DENTAL CENTRE

THE PARK ROYAL VILLAGE DENTAL CENTRE is not your typical facility—but one that is entirely by design, says Dr. Ali Behmard, a former local who has returned to the North Shore. Dr. Behmard's patient-friendly approach is not hard to understand when you realize that he was in the same shoes as some of his patients. "I wasn't a big fan of going to the dentist myself," he says. "There were many things I didn't like about dental offices—the look, the smells and the sounds. Those are all things that we have improved in this office. We have

created a very warm, welcoming atmosphere and take a more gentle, preventative approach to dentistry. We are extremely sensitive to our patients' needs, especially those who don't like going to the dentist." Patients can relax and watch TV while having their dentistry done. The office uses state of the art equipment like computerized fillings and crowns that can be done in one visit. The office also offers one hour laser bleaching and invisalign, which is a clear alternative to teeth straightening without braces or wires. Dr. Behmard is looking forward to renewing his relationship with the community and the families who call it home. "I like to make my patients feel comfortable. Ultimately, I want this office to be an inviting place where patients can look forward to exceptional dental care."
